Frontline providers – obstetricians/gynecologists, family practice physicians, internists, nurse practitioners, midwives, physician’s assistants, and nurses – are the first, and often the only, provider to which new moms turn. Are you ready to respond with effective and well-researched treatment options to help them get better?

Join PSI for this one-day presentation designed to teach providers to screen, assess, treat, or refer perinatal mental health disorders.

Continuing Education

CME: This Enduring Material activity, Perinatal Mental Health Training for Frontline Providers, has been reviewed and is acceptable for up to 4.50 Prescribed credit(s) by the American Academy of Family Physicians. AAFP certification begins 08/01/2019. Term of approval is for one year from this date. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CNE: Perinatal Mental Health Training for Frontline Providers (OCEAN ID #2018-5) has received OCEAN approval for 4.50 contact hours.

APA: Postpartum Support International (PSI) is approved by the American Psychological Association to sponsor continuing education for psychologists. Postpartum Support International (PSI) maintains responsibility for this program and its content. The course provides 4.5 CE contact hours.

Occupational Therapists: PSI is an approved provider of CEUs by American Occupational Therapy Association (AOTA), Provider #11342. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA, or indicate AOTA approval of a certification or other professional recognition.

Topics covered:

- Recognizing the different presentations of perinatal mental health disorders;
- Screening tools for perinatal mood and anxiety disorders;
- How to make an accurate diagnosis;
- Psychopharmacological treatments including during pregnancy and lactation;
- Evidence based non-pharmacological treatments; and
- Case studies.
