Patrícia Martinková leads the Computational Psychometrics (COMPS) Group at the Czech Academy of Sciences in Prague and is an Associate Professor in Measurement and Statistics at Charles University.

She received her Ph.D. in Statistics from Charles University in 2007. She is a Fulbright alumna and an Affiliate Associate Professor in the Department of Statistics at the University of Washington. Her research focuses on latent variable models, measurement error and reliability, and applications of computational linguistics and machine learning to psychometric assessment. She teaches Statistical Methods in Psychometrics and organizes a Seminar in Psychometrics jointly hosted by Charles University and the Czech Academy of Sciences.

Dr. Martinková has contributed actively to the Psychometric Society through conference organization, editorial leadership, and support for early-career researchers. She chaired the Local Organizing Committee for IMPS 2024 in Prague, has served as a judge for IMPS poster sessions, and served on the Editorial Council (2023–2026), including as its Chair (2025–2026). She also serves as Reviews Associate Editor for the *Journal of the American Statistical Association* and as an Editorial Board member for *Methodology*.
