Marie Wiberg is a Professor of Statistics with a specialization in psychometrics at Umeå University, Sweden. She has authored nearly one hundred peer-reviewed journal articles and book chapters across a broad range of technical and applied topics in psychometrics, including test score equating, large-scale assessments, and item response theory. Wiberg has served as Associate Editor for the *Journal of Educational Measurement and* as a regular reviewer for several internationally recognized journals, with her contributions recognized by the 2026 Best Reviewer Award from *Psychometrika* and an Outstanding Reviewer Award from the *Journal of Educational and Behavioral Statistics*. Marie has demonstrated a longstanding commitment to the Psychometric Society through extensive service and leadership. She has served two terms on the Board of Trustees, as Associate Editor for the IMPS Proceedings (2015–2016), and as Main Editor for seven years (2017–2023). Her engagement also includes seven years as a poster judge at IMPS, chairing numerous sessions, delivering a workshop, and mentoring graduate students through the Society's mentoring program. She has also served on the IMPS Program Committee for the past two years. Marie has extensive international collaborations, values the Society's global reach, and is committed to strengthening member engagement across its global community. She believes that every member can contribute meaningfully not only to advancing psychometrics but also to applying psychometric research to broader societal challenges.
