Dr. Gongjun Xu is a Professor in the Department of Statistics, with a joint appointment in the Department of Psychology, at the University of Michigan. He received his Ph.D. in Statistics from Columbia University in 2013. His research focuses on psychometrics, latent variable analysis, cognitive diagnosis modeling, item response theory, and statistical learning and inference. He has published more than 100 papers in leading statistics and psychometrics journals, including 24 in *Psychometrika*. His psychometric research has been supported by the National Science Foundation (NSF) and the Institute of Education Sciences (IES). His honors include the NSF CAREER Award (2019), ICSA Outstanding Young Researcher Award (2019), Bernoulli Society New Researcher Award (2019), COPSS Emerging Leader Award (2023), Psychometric Society Early Career Award (2023), AERA Division D Significant Contribution to Research Methodology Award (2025), and American Statistical Association (ASA) Fellow (2026).

Dr. Xu has been actively engaged in professional service to psychometrics and related fields. He serves as Co-Editor-in-Chief of the *Journal of Educational and Behavioral Statistics* and as an Associate Editor for *Psychometrika*, the *Journal of the American Statistical Association*, the *Annals of Applied Statistics*, *Statistica Sinica*, and the *Journal of Data Science*. He co-organized the 2023 ICSA Annual Conference and served as AERA Division D Program Co-Chair and Executive Committee member (2025–2026), as well as an IMPS 2026 Program Committee member. He and his research group regularly participate in IMPS and other psychometric conferences. He is eager to contribute further to the Psychometric Society, support early-career researchers, and help build connections across psychometrics and related fields.
